WebLearning Education Onsite

Looking for an easy way to get your training into the hands of the right people?

If so, then the WebLearning Education On-Site is the solution for you! WebLearning now offers Instructor-Led On-Site training packages to deliver the highest quality HR, CRM, SCM, Financials, Performance Management, business intelligence and data warehousing education at your place of business. These packages make the most of your training budget by bringing high-impact education directly to you at moderate cost.

As a benefit for those seeking certification, these packages are aligned with the five areas of specialisation for WebLearning's Certified Business Intelligence Professional (CBIP) credential—the most meaningful and credible certification in the industry.

Optimised for Educators and Businesses, WebLearning On-Site also delivers the highest quality business intelligence and data warehousing education materials in the form of Instructor Led and Student Handbook Courseware to your location. For more than 10 years, WebLearning has offered Onsite training for all levels in organisations, so everyone involved in a project shares a common knowledge base and learns in support of the same corporate objectives.

Benefits of Bringing WebLearning Education Onsite:

- **Cost-Effective:** Eliminate travel-related expenses and get more for your training investment.
- **High-Impact:** Advance project goals by giving your team members an equivalent understanding of core concepts.
- **Convenient:** Schedule training when your workload best accommodates it.
- **Flexible:** Tailor training to your specific needs and incorporate organisation-specific information.

WebLearning Onsite Courses & Instructors

Every WebLearning course is rich with business and technical concepts and techniques that are proven in practice, and every WebLearning instructor is a business intelligence and data warehousing practitioner

with “in-the-trenches” experience.

Our Clients

We present world-class predictive analytics, business intelligence, data warehousing, big data, data science, PeopleSoft Human Capital Management, Oracle Human Capital Management, Oracle Financials Applications, Oracle WebLogic Server and IBM WebSphere Application Server training for organisations worldwide in information technology, telecommunications, pharmaceuticals, finance, insurance, energy, government, defence, healthcare, and many other industries.

Top 10 Reasons to Bring WebLearning Training Onsite:

- Training tailored to your organisation and environment
- To train many employees at the same time without incurring travel expenses
- To provide consistent training for your entire project team
- Just-in-time training matched to your project and work schedules
- Cohesion, continuity, and consistency among multiple courses
- Consistent training for multiple, geographically-dispersed work groups
- Training to align with your objectives for workforce and skills development
- To blend classroom training with workshops based on your organisation's projects
- A programme that leads to certification of business intelligence professionals
- An environment where open discussion of your organisation's projects and issues is protected by WebLearning's commitment to privacy and non-disclosure

Furthermore, you have complete control over who can access what training and reports, and when they can access them.

A Complete Learning Solution:

To make managing your training programmes even easier, WebLearning also offers a fully-integrated Self-Study computer based training (CBT) CD-ROM and e-Learning Curriculum to complement your On-Site Classroom lessons.

The Bottom Line:

Your business success depends upon effective learning strategy that can be delivered when and where it is needed most—and at a cost-effective price as well. WebLearning can help you succeed by providing solutions that give you the power to meet the demands of your business learning needs.
